Our Story

Founded in 1994, our mission is to promote the health and welfare of companion animals through a reduction in the incidence of genetic disease. The OFA website and databases provide the tools needed, whether you are a veterinarian, breeder or prospective owner.

We raise beautiful dark and light AKC Registered Golden Retrievers puppies.

All of our Dogs and Puppies are FULL AKC Registered Golden Retrievers.

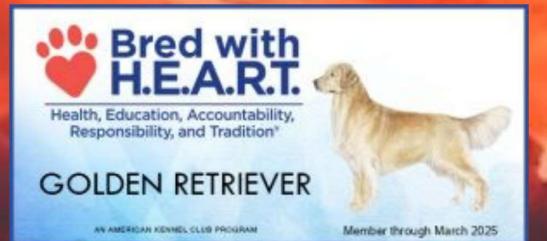

We are proud practitioners of OFA and genetic testing. We genetic test our puppies' parents before breeding, followed by OFA testing at 2 years of age.

We also DNA test through AKC our parents (aka Sires and Dams). We are confident when selling our puppies that we have done our best in order to provide our clients with happy and healthy puppies.

Our puppies are vet-checked with signed health certificates by a licensed veterinarian and come with their first puppy vaccines.
